CORE COMPETENCIES

- Project Management
- Leadership
- Strategic Planning
- Budget Management
- Risk Management
- Stakeholder Engagement
- Agile Methodologies
- Waterfall Methodologies
- Cross-functional Collaboration
- Quality Assurance
- Client Relationship Management
- Change Management
- Process Improvement
- Merger and Acquisition
- Technology Transfer
- Transition Management
- Resource Utilization and Optimization

PROFILE SUMMARY

Seasoned IT professional with 18 years of comprehensive experience in software product development, encompassing design, testing, deployment, support, and maintenance across diverse IT infrastructure landscapes. Successfully overseen complex projects from inception to completion, consistently delivering high-quality solutions that meet or exceed client expectations. My expertise lies in orchestrating multidisciplinary teams, fostering collaboration, and implementing best practices to drive efficiency and maximize project outcomes. I have remained at the forefront of technological advancements, leveraging emerging tools and methodologies to optimize software development processes and enhance overall project performance. Dedicated to driving innovation and driving positive change within the IT industry while delivering tangible value to stakeholders.

TECHNICAL SKILLS

- ❖ Agile Methodologies: Scrum, Kanban, Lean, Agile Project Management
- ❖ Software Development Lifecycle (SDLC)
- ❖ Cloud Platforms: AWS, Microsoft Azure, Google Cloud Platform
- ❖ IT Infrastructure Management: Networking, Servers, Virtualization, Docker
- ❖ Cybersecurity: Threat Detection, Penetration Testing, Security Protocols
- ❖ Data Analysis and Reporting: Tableau, Power BI, Google Analytics
- ❖ Enterprise Resource Planning (ERP) Systems: SAP, Oracle ERP Cloud, Microsoft Dynamics
- ❖ Big Data Technologies (HDFS, Yarn, Hive, Pig, Spark, Scala, MapReduce, HBase, Hue, Oozie)
- ❖ Database Management Systems: MySQL, PostgreSQL, MongoDB, Oracle
- ❖ Requirement Gathering

EDUCATION

- ❖ Indian Institute of Management Visakhapatnam | Postgraduate Degree, Business Administration and General Management | 2023-2024
- ❖ Bachelor's degree, Electrical, Electronic and Communications Engineering | Anna University

WORK EXPERIENCE

Project Director | Venturiq | Nov 2023 - Present

- ❖ Drive initiatives to enhance excellence in these domains within the organization.
- ❖ Lead the end-to-end development cycle of innovative products, from conceptualization to deployment.
- ❖ Implement robust monitoring mechanisms to track project progress against milestones and financial plans.
- ❖ Ensure the delivery of premium solutions by maintaining high-quality standards throughout the development cycle.
- ❖ Cultivate transparent relationships with clients and stakeholders, ensuring alignment of tasks with project objectives.
- ❖ Define project scope, objectives, and goals, crafting a roadmap for success. Monitoring and Quality Assurance:
- ❖ Implement effective monitoring mechanisms to track project progression against milestones and financial plans.
- ❖ Successfully led the development and refinement of "Venautomate," a flagship solution exemplifying seamless integration of RPA, AI, and ML.

Technical Project Manager | Aisera | Sep 2022 - Dec 2023

- ❖ Develop comprehensive project plans, timelines, and milestones for generative AI development projects.

- ❖ Collaborate closely with cross-functional teams to define clear project requirements and objectives.
- ❖ Demonstrate a profound understanding of generative AI technologies, such as GANs, VAEs, and reinforcement learning.
- ❖ Coordinate communication among data scientists, machine learning engineers, software developers, and stakeholders.
- ❖ Cultivate a collaborative and innovative environment to foster the development of advanced generative AI solutions.
- ❖ Identify potential project risks and challenges in the realm of generative AI and devise proactive mitigation strategies.
- ❖ Manage project resources, including budget, equipment, and personnel, to ensure optimal execution.
- ❖ Oversee quality assurance processes to guarantee the reliability and effectiveness of generative AI models, collaborating closely with the QA team.

Product Project Manager | Venturiq | Aug 2021 - Sep 2022

- ❖ Develop and execute project plans, timelines, and milestones for product development initiatives.
- ❖ Ensure effective coordination with cross-functional teams to define project requirements and objectives.
- ❖ Foster collaborative relationships to ensure alignment of project goals with business objectives.
- ❖ Identify and mitigate project risks, proactively addressing challenges to minimize disruptions.
- ❖ Implement robust quality assurance processes to maintain product quality and reliability.

Project Manager | DXC Technology (HPE / HP) | Aug 2006 - Apr 2021

- ❖ Ensure the seamless management of DXC Global Supply Chain Management and CRM Team projects, as well as third-party SaaS system development and deployment.
- ❖ Lead planning, budgeting, and execution processes for IT projects catering to internal and external clients.
- ❖ Drive the implementation of Agile Methodology to enhance project efficiency and delivery.
- ❖ Facilitate planning meetings, reviews, and retrospectives to ensure effective project management.
- ❖ Demonstrate proficiency in understanding and addressing technical issues to maintain project momentum.
- ❖ Delegate project tasks based on individual strengths, skill sets, and experience levels.
- ❖ Deliver weekly/monthly project updates tailored to varied audiences, demonstrating clarity and insight into project progress.
- ❖ Manage IT budgets encompassing Capex, Opex purchases, and Cross Company chargeback, ensuring prudent resource allocation and adherence to financial objectives.
- ❖ Drive continuous improvement initiatives, leveraging past achievements and lessons learned to enhance project outcomes.

PREVIOUS WORK EXPERIENCE

Hewlett Packard Enterprise | May 2013-Sep 2017

Senior Software Engineer

Business Analyst

Project Manager

HP | Jul 2005-Jun 2013

System Engineer

Junior Engineer

Software Engineer

Software Test Lead

LICENSES AND CERTIFICATIONS

- ❖ PRINCE2® 2017 Foundation & Practitioner - AXELOS Global Best Practice
- ❖ Certified Scrum Product Owner (CSPO) - Scrum.org
- ❖ Developing Microsoft SQL Server 2012/2014 Databases | Microsoft | Issued Apr 2007
- ❖ ITIL Service Operation | HP | Issued Apr 2007

PATENTS AND AWARDS

- ❖ National Research Excellence Award 2023-2024 - Novel Research Academy | Feb 2024 | Best Researcher Award
- ❖ Bharath Sanmaan Nidhi Purshkar 2024 - Institution For Social Reforms And Higher Education | Feb 2024 | I Have Been Awarded By Govt Of Delhi As Best Researcher Award With Title Bharath Sanmaan Nidhi Purshkar 2024
- ❖ Block Chain Based Storage Device for Medical Equipment | 400703-001 · Issued Nov 25,2023
- ❖ An Improvised Method for Evaluating Employee Appraisal | 202341015143 · Filed Mar 8,2023
- ❖ An Improvised Model for Predicating Bitcoin Prices Using Machine Learning | 202341014844 · Filed Mar 8,2023
